

1. Identification of the substance and of the company	<p>* Identification of the substance: Elmet, Sparkal * Use of the substance: products such as for arcing contacts, heat sinks, electrodes *Company: CIME BOCUZE, 446, avenue des Dignes, BP 301, St. Pierre en Faucigny, F-74807 La Roche sur Foron Cedex, PLANSEE Powertech AG, Retterswil 13, CH-5703 Seon, PLANSEE Composite Materials GmbH, Siebenbürgenstr.23, D-86983 Lechbruck, e-mail: environment.management@plansee.com *Emergency number: phone +33 (4) 5025 37 00, +41 62 769 60 80, +49 (8862)773-0</p>
2. Hazards Identification	<p>*Classification: not hazardous material pursuant to Regulation (EC) no. 1272/2008 EC or EC Directive 67/548/EEC *Compact Metal / Alloy with no Risk to Human Health or the Environment.</p>
3. Composition/Information on ingredients	<p>*Summary: tungsten, copper 10-40 % mass fraction EC no. tungsten: 231-143-9, copper: 231-159-6 CAS no. tungsten: 7440-33-7, copper: 7440-50-8 *Hazardous components: none</p>
4. First-aid measures	<p>*Inhalation: no exposure when used as directed. *Skin contact: wash dust off thoroughly with soap and water. * Doctor is needed or advisable: consult a physician after prolonged exposure to dust.</p>
5. Fire-fighting measures	<p>*Suitable extinguishing media: The product itself is not flammable. *Adapt extinguishing measures to surroundings. *Special hazard: increased fire hazard during dust formation. *Protective equipment: breathing protection in the presence of dust.</p>
6. Accidental release measures	<p>*Personnel-related precautionary measures: dust should be suction cleaned directly at source. *Environmental protection measures: no particular environmental protection measures are required.</p>
7. Handling and storage	<p>*Handling: Avoid dust formation. Use suction cleaning if unavoidable and when processing at high temperatures (sublimate formation, see item 10). *Storage: no special measures required.</p>
8. Exposure controls/personal protection	<p>*Exposure thresholds: workplace: tungsten 5 mg/m³ inhalable fraction, mean daily value, copper 1 mg/m³ *Dust-like emissions: General 5 mg/m³, copper 2 mg/m³ *Wastewater emissions: tungsten 5 mg/l, copper 0,5 mg/l *Workplace exposure: install suction cleaning when working with dust and sublimate and use at least one FFP2 respirator. *Environmental exposure: install suction cleaning with filter when working with dust formation. *Do not empty into drains.</p>
9. Physical and chemical properties	<p>*Appearance: solid grey material *Melting point: tungsten 3410°C, copper 1083°C *Density: 13 to 18,3 g/cm³ at 20°C *Solubility: insoluble in water, acids and bases; soluble only in hydrofluoric acid or a base in combination with a strong oxidizing agent.</p>
10. Stability and reactivity	<p>*Conditions to be avoided: high temperatures in air (strong oxidation beginning around 400 °C, sublimation of WO₃ beginning around 850 °C). *Substances to be avoided: none</p>
11. Toxicological information	<p>*No known toxic effects.</p>
12. Ecological information	<p>*Ecotoxicity: No known ecotoxic effects. *Mobility: low mobility due to low solubility. *Persistence and degradability: stable inorganic material. *Bioaccumulation potential: no data available.</p>
13. Disposal considerations	<p>*Dispose of residues as metal waste. *Obey national or regional regulations.</p>
14. Transport information	<p>*ADR / RID / ADN / IATA (ICAO) / IMDG: not a dangerous good pursuant to international transport regulations.</p>
15. Regulatory information	<p>*No labeling required. *The exposure thresholds given under item 8 pertain to Austrian legal regulations. *Obey national regulations.</p>
16. Other information	<p>*Above information corresponds to our current state of knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship. *Detailed results of the toxicological and ecotoxicological effects are described in the chemical safety report for REACH registration.</p>
